OBJECTIVE

"WORK IT - life reduced to a list", is a 'To-do list' app, functioning as a basic amenity to manage daily tasks more effectively in an efficient manner. Any assignment or target can be mentioned in it to be recognized on time. The overall purpose of the to-do list is to remind an individual of the planned activities to be done.

FEATURES

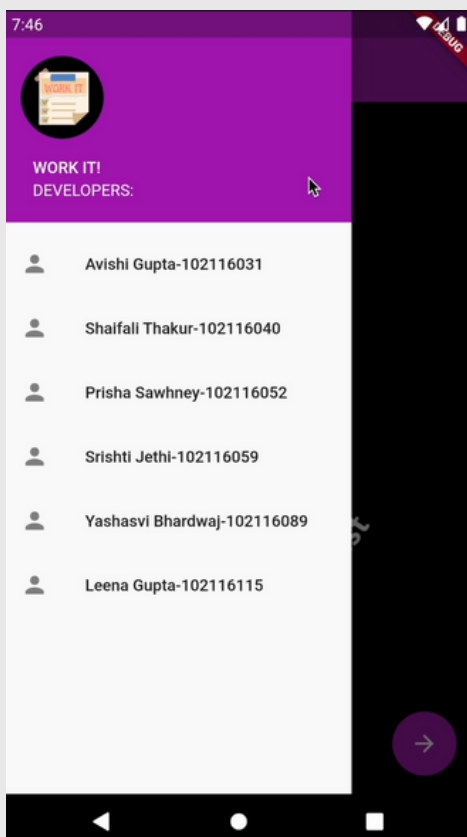

- Task Management
- Simple UI
- User Friendly
- Higher Compatiblity
- Intuitive Navigation
- Cross Platform

WORKING & DEMONSTRATION

A drawer slider, which when clicked, opens a navigation slider.

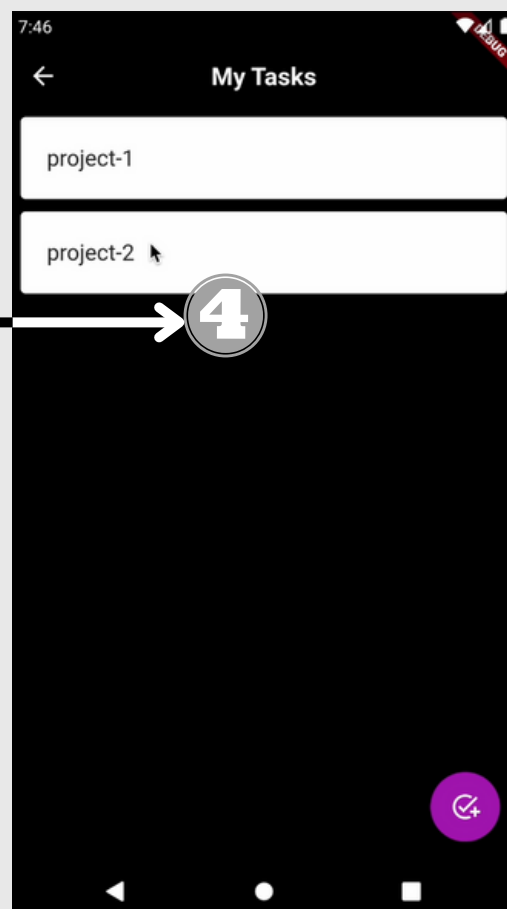

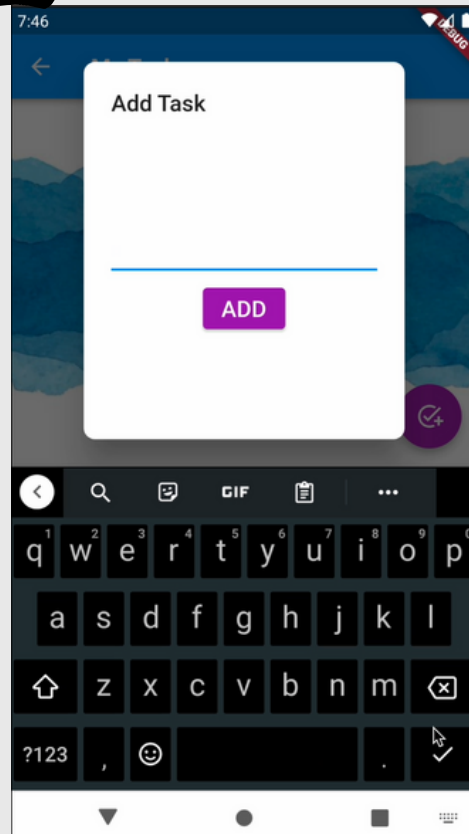

A floating action button, which when clicked takes the user to the task adding page.

A floating action button, using which the user can add the task

A task is added, on long pressing the task widget, completion of the task is indicated.
